

1 QUALITY POLICY

‘Castings Technology International aim to surpass our client’s expectations in every respect by exceeding all applicable international standards and customer requirements.’

To this end, Cti embrace relevant national and internationally recognised standards including BS EN ISO 9001, BS EN 9100, ISO/IEC 17025 and Nadcap special process accreditations along with the customer, statutory and regulatory requirements applicable to products to ensure these are fit for purpose (referred subsequently as the Quality Approvals).

It is the policy of Cti to demonstrate compliance with the Quality Standards and perform work in a Total Quality Manner with defect prevention, striving for zero defect: and continual improvement being a requirement of all personnel. The Quality Policy is implemented through the Quality Management System the content and familiarity of which is binding for all Cti’s personnel.

All work carried out by Cti will be in the strictest confidence and shall protect the statutory rights of all parties involved in the work. Documentation will be retained providing evidence of the Management’s commitment to the Quality Policy, Objectives and to providing the necessary resources to obtain quality.
