		Date	Aug 26
Product Safety and Conformity Policy		Issue No.	6
		Issued By	MS / NC

At Castings Technology International Ltd, we are committed to delivering safe, conforming and reliable investment castings and associated services that consistently meet customer, statutory, regulatory and applicable industry requirements. Product safety and product conformity are fundamental to every stage of our manufacturing processes and are essential to maintaining the confidence of our customers within the aerospace and defence industries.

We are committed to promoting a strong product safety culture by:

- Ensuring leadership commitment and accountability for product safety and conformity throughout the organisation.
- Identifying, assessing and managing risks that may affect product safety, quality or conformity.
- Manufacturing, inspecting and testing products in accordance with approved specifications, customer requirements and applicable industry standards.
- Maintaining robust process controls, traceability and configuration management to ensure product integrity throughout the product lifecycle.
- Ensuring personnel are competent, trained and aware of their responsibilities for product safety, product conformity and ethical behaviour.
- Encouraging open communication and the prompt reporting of any condition that could affect product safety, quality or conformity.
- Continually improving our processes, products, equipment and Quality Management System to enhance product safety and customer satisfaction.

Any actual or suspected issue that could affect product safety or product conformity shall be reported immediately. Affected products will be identified, segregated and controlled to prevent unintended use or delivery while an appropriate investigation is undertaken and corrective action implemented.

Product safety and product conformity are the responsibility of every employee. Management is committed to providing the leadership, resources and oversight necessary to ensure compliance with BS EN 9100, customer requirements and all applicable statutory and regulatory obligations.
